

François-Xavier Michon

3D Technical Artist - Unity / VR / C# / Hard-Surface

3D Asset Creation, Real-Time Integration & C# / Tool Development

Specialized in realistic modeling, VR integration, and interactive environments. Rigorous and self-driven, with a proven ability to deliver complex real-time projects requiring precision, analytical thinking, and technical reliability.

SOFT SKILLS

- Intellectual curiosity
- Problem-solving
- Teamwork
- Autonomy
- Proactive / Initiative-driven
- Adaptability to technical and scientific requirements

HARD SKILLS

3D /VR / Unity

- **3D Modeling:** expertise in Blender & Substance Painter (UV, texel density, textures, baking, LOD). Proficient in Photoshop, Illustrator, Krita.
- **Game Engines:** expertise in Unity (imports, materials, shader graph, lighting, C# scripts, performance). Knowledge of Unreal.
- **VR / AR / XR Expertise:** Quest 2/3, HTC Vive Pro Eye / Focus Vision.

Software Development

- **Programming languages:** Proficient in C# (OOP), Python, MATLAB (Scripting), HTML/CSS (knowledge)
- **Framework:** .Net, WPF, Winforms.
- **Software Design** - Advanced
- **UI/UX Design** - Advanced
- **Version Control (VCS):** Git, GitHub, GitLab, Plastic SCM
- **Requirements Analysis** - Advanced
- **Project Methodologies:** Agile.

Analysis & Research

- **Data Analysis & Visualisation:** end-to-end pipeline (preprocessing, signal processing, normalization, statistics)
- **Scientific Research:** protocols, behavior, electrophysiology, calcium imaging, scientific writing.

Languages

- **French:** native
- **English:** Professional proficiency

WORK EXPERIENCE

- 2025-2026 **Diverse personal C#/.NET projects and founding of InfoGraFX microenterprise - remote work, France**
- **3D modeling, C# development (WPF, WinForms, Unity), and web site deployment**
- 2023-2025 **Research Engineer, Modeler & Developer - CRVM, Aix-Marseille University, Marseille, France**
- **3D Modeling:** Created 3D assets for VR/XR serious games, including texturing, optimization for Unity, and shader creation.
 - **Virtual Reality (VR) Application Development:** Contributed to 4 Unity VR applications (model integration, C# scripting), developed a Python research tool for virtual reality (ANR DEVISE project), designed user interfaces (GUI), and created 2 serious games.
 - **Project Management:** Analyzed technical requirements and coordinated cross-functional teams.
- 2022-2023 **3D Asset Creation & Development - Training and Remote Work, France**
- **3D Asset Modeling:** Created 3D assets for a video game, integrated them into Unity, and developed C# gameplay mechanics.
- 2019-2022 **R&D Engineer, Postdoctoral Researcher - Université de Montréal, GRSNC, Montreal, Canada**
- **VR Experiment Design:** Designed virtual environments for rodent behavioral experiments.
 - **Data Analysis:** Processed behavioral and imaging data using MATLAB.
 - **Project Management:** Supervised students and collaborated with research teams.
 - **Publications:** Published 3 scientific peer-reviewed papers.
- 2014-2018 **R&D Engineer, PhD Researcher - Aix-Marseille University, Inmed, Marseille, France**
- **VR Tool Development, Data Analysis, Project Management, Publications:** Published 1 research paper and PhD dissertation.

EDUCATION

Degrees:

- 2014 - 2018 **PhD in Neuroscience** Aix-Marseille University, Marseille, France
- 2013 - 2014 **Master's Degree in Cognitive and Integrative Neuroscience** Aix-Marseille University, Marseille, France
- 2010 - 2012 **Bachelor's Degree in General Biology** Versailles Saint-Quentin-en-Yvelines University, France

Additional Training & Certifications:

- 2025 Dec. **Substance Designer 2024 - Stylized Material Creation** Udemy ([view on Udemy](#))
- 2023 Nov. **Virtual Production Artist** Travelling Film School
- 2023 June **Blender Environment Artist - 3D World Creation** Udemy ([view on Udemy](#))

PERSONAL PROJECTS

- 2026 **Web site creation using HTML/CSS** - CV website ([link](#)) and InfoGraFX ([link](#))
- 2026 **WPF application** for beaded bracelet pattern design ([link](#))
- 2026 **Calendar WinForms application** ([link](#))
- 2026 **VR application (Unity)** for a 360° Quebec Virtual Tour. ([link](#))

INTERESTS

Emerging technologies
Energy transition,
Music (guitar, trumpet, FL Studio)
Video games
